With the teaching for understanding approach, physical education teachers can modify standard game skills to make them accessible to students with disabilities. Adapted physical education is an individualized program of developmental activities, exercises, games, rhythms, and motor skills that is effective if members adopt a collaborative approach and share perspectives.

As the APENS Chairman of SUNY Cortland and the Motor Development Clinic Director at Cal Poly, Lindsay Cecil, an Adapted Physical Education Teacher in Los Angeles, along with Paul E. Ponchillia, have worked to develop a new book that co-authors, a comprehensive guide for physical education teachers, adapted physical education specialists, and coaches. The book, titled "The New Adapted Physical Education: A Developmental Approach," focuses on a methodical and developmental approach to teaching physical education. It addresses the needs of individuals with disabilities, promoting the development of motor skills and physical fitness.

The new edition of Developmental/Adapted Physical Education: Making Ability Count takes a developmental approach to special education and physical education. It provides games and activities for both the regular and adapted physical education programs. The book is designed to help teachers meet the needs of individuals with disabilities by providing a practical approach to teaching. It emphasizes the importance of a collaborative team approach, which recognizes personal interests and capabilities.

New and expanded topics include orientation and mobility, cognitive development, and the use of technology in adapted physical education. The book offers eligibility criteria for adapted physical education and discusses the role of guidance in this process. It also provides a statewide DAPE professional coaching program for new or different types of physical education and human development. The authors encourage the use of an individualized approach, which recognizes personal interests and capabilities, and promotes a wide range of activities.
